

PRESS RELEASE

FOR IMMEDIATE RELEASE

Mode-AL develops new range of inset monitors

Mode-AL is pleased to announce the new Mode-AL DLM-17.17” full HD Inset Monitor - the only complete “drop-in” monitor, for quick and simple installation.

Ideal for Boardrooms, Conference auditoria, Broadcast, Video conferencing, receptions, court rooms etc, the innovative design features a thin LED backlight panel resulting in an ultra-modern and slim design (just 9.4mm) of the screen enclosure. The display provides a screen tilt from 35° to 90° and broad connectivity from four inputs - HDMI, DVI, VGA & RGB – all contained within a single module that can be inset into any surface.

Other sizes will be available from Q2, 2017.

Features and Benefits

- 17.3 inch 16:9 LCD with LED back light. Full HD **1920x1080** resolution.
- Machined form billet aluminium for a superior strength and ultra-thin profiles.
- Mountings accept substrates from 18-33mm thick as standard
- A choice of 4 inputs for easy connectivity
- Tilt from 35° back, to 90° vertical
- Natural anodised (silver) or black finishes
- One handed tilt operation
- Client engraving on screen surround or base plate optional
- Custom versions available on request
- Integration of cable cubbies available upon request
- Integration of microphone mounts available upon request

The Mode-AL DLM-17 will be on display at the ISE 2017, Amsterdam, 7-10 February. Come and see it in action at Stand F75, Hall 12.
