FOR IMMEDIATE RELEASE

Mode-AL launches its “most versatile stand ever”

Mode-AL’s Plasma Diecast Mega stand

Mode-AL’s new Plasma Diecast Mega stand is the most cost effective solution for mounting very large format monitors. It is specifically designed to take any screen over 70” and/or multiple screens up to 100kg in weight. This stand now represents “the most versatile stand ever” in the Mode-AL range. Ideal for boardrooms, meeting rooms, office receptions, conference auditoria etc. Its large carrying capacity can host a vast array of different screen configurations.

Features and Benefits

- Designed for 70” to 100” screens out of the box
- 100kg load capacity
- Multiple screen options
- Motorised height adjustable option
- Optional screen outrigger supports to stop screen wobble.
- Vertical 6 u or twin 6u cabinets
- Custom colours to any RAL or BS shade.
- Slim profile ideal for touch screens
- Free standing die cast base with levelling feet
- Castor option
- CPU enclosure under base option
- Wall-Wall mount derivative available
- Floor-Ceiling derivative available
- Wall-Floor mount derivative available
- Bolt down (to floor or Slab) derivative available

The Plasma Diecast Mega stand will be on display at the ISE 2017, Amsterdam, 7-10 February. Come and see it in action at Stand F75, Hall 12.
